January 2012 - December 2012

- This is an itemized list of some of things this job included – there is a lot of stuff
- It involved a lot of being awesome and being paid to be awesome
- It also involved putting up with a boss that wasn't very nice and someone who smelled funny
- There were lots of duties here, we can count them – one, two, three, four, five
- The TPS reports were never done on time which resulted in a lot of coming in this weekend

Skills & Interests

- Whole list of things that I am great at doing, being awesome, eating tacos, etc
- I mean I really do love tacos... you have no idea.
- That isn't to say I don't also love burritos... because, trust me, I do
- Just means I have an affinity for tacos...
- I like them with lime, lime is really good
- Especially on fish tacos... you can't have fish tacos with out it
- There is a shortage of great tacos in Pleasantville – this makes me sad
